

Deze multifunctionele wandlamp heeft een -in alle richtingen- kantelbaar voorvlak. Op deze manier kan het licht naar wens gestuurd worden. Gegroepeerd leveren de gekantelde voorvlakken een subtiel en spannend beeld op, van schuine vlakken en verschillende lichtopeningen. Als enkele lamp kan de tilt vrij gericht worden, of net functioneel.

Streng recht of speels gedraaid en gekanteld; de mogelijkheden en combinaties met de tilt zijn oneindig.

Tilt is a multifunctional wall lamp. The front plate can be turned and tilted in every possible direction. When combined, the tilted plates create an exciting and subtle atmosphere of oblique surfaces and light. Used as a single wall lamp, tilt can be directed at random or in a functional way, as an up- or downlighter.

Strictly straight or playfully turned and tilted; the possibilities and combinations with this lamp are infinite.
